

How to Measure For Shutters:

1. Measure the width of your window.

Remember to include the window frame in your measurements.

Typically, the width of your shutter should be half of your total window width.

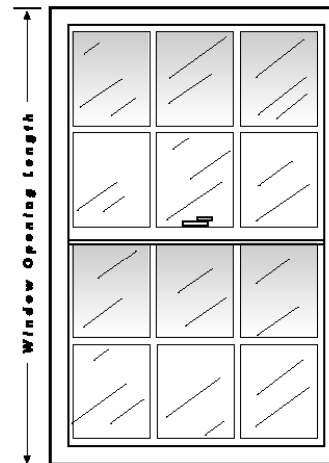

Window Width	Shutter Width
16" or smaller	7"
17" – 22"	9" - 10"
23" – 31"	12" – 14.5"
32" – 40"	14.5" – 16.25" – 17.75"

2. Measure the height of your window.

Remember to include the window frame in your measurements.

Typically, the height of your shutter should match the height of your window.
